

Online Access to Medical Records

Detailed Coded Data

Patients are now able to access more of their medical records online.

This will mean you be able to view all your detailed coded information held in your record.

What is included in detailed coded information:-

- **Immunisations**
- **Procedure Codes – medical or surgical**
- **Problems and Diagnosis**
- **Results**
- **Medication**
- **Allergies/Adverse Reactions**
- **Demographics**

Patients have been able to order repeat prescriptions and book appointments on line for a while but will need to register again to access the above detailed coded medical record.

At present the access is a summary of your record but we are now allowing full 'coded' access following NHS guidelines.

Please ask at reception for a form if you wish to use this service.

If you have any further questions please contact the surgery.
